"Women With Heart Wear Red Day"

MSM Women with Heart challenge you to "sport red" and join The Heart Truth national movement on wearing red to bring awareness about heart disease.

Women With Heart is an organization of civic-minded women with a love for Morehouse School of Medicine and its unique mission. Established in 2009 by First Lady Eilene Maupin, ***Women With Heart*** supports the institution and its students by assisting in raising funds for student scholarships and academic programs and by promoting the value of the institution throughout the greater Atlanta community and the state of Georgia.

Donations will support the MSM Women with Heart Student Scholarship!

Please contact Nikita Richardson at 404.752.1842 or nrichardson@msm.edu to learn how you can support our effort.

IN PARTNERSHIP WITH THE heart TRUTH™

The Heart Truth, sponsored by the National Heart, Lung and Blood Institute, is vital to giving women life-saving messages about their risk for heart disease and how to lower it. In our inaugural year, ***MSM Women With Heart*** joined ***The Heart Truth*** to create a national movement aimed at delivering an urgent wake-up call to women about heart disease. Taking action requires the efforts of many groups and individuals, and the involvement of the ***MSM Women With Heart*** is critical to delivering and executing the campaign within our community.
