(Not pictured: Morris Brown, MD)

Since 1962, Laureate Medical Group has built its reputation by providing excellent medical care combined with sincere compassion for their patients. Starting with one physician and one small office, Laureate's growth has matched that of metro Atlanta. Today, nineteen board-certified internists continue the practice's commitment to a patient-focused environment in four offices: Midtown, Sandy Springs, Alpharetta, and Jonesboro.

Each location offers a variety of non-invasive diagnostic tests on-site, including lab tests, EKGs, echocardiograms, x-rays, bone-density tests, and stress tests. In addition, the practice offers specialized care in rheumatology and endocrinology, as well as nutrition consults and classes.

Proud to be named one of the 2011 AJC Top Workplaces

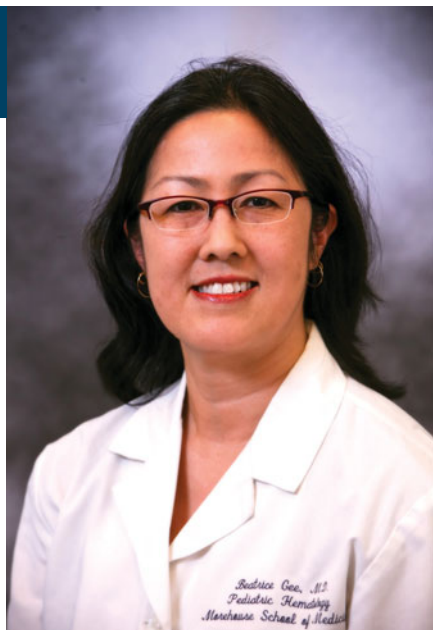
[Beatrice Gee, MD]



Dr. Beatrice Gee has a passion for sickle cell investigation and treatment. She works tirelessly to care for children and advance research to reduce complications and improve prognosis for those suffering with the disease. Dr. Gee was recently recognized as a Top Doctor in pediatric hematology and oncology by *U.S. News & World Report*, and she has extensive experience with multi-center trials of hydroxyurea and primary prevention of stroke in sickle cell disease.

Beatrice Gee, MD
Assistant Professor of Pediatrics, Morehouse School of Medicine
Medical Director, Sickle Cell and Hematology Program,
Children's Healthcare of Atlanta–Hughes Spalding
