Systems of the Body

# JEOPARDY

Muscular	Respiratory	Skeletal	Nervous	Circulatory
10	10	10	10	10
20	20	20	20	20
30	30	30	30	30
40	40	40	40	40
50	50	50	50	50

# Muscular System for 10 Points

**Bundles of cells and fibers**

What are muscles made  
of?

# Muscular System for 20 Points

**These are the three types  
of muscles in the human  
body.**

What are smooth, cardiac and skeletal?

# Muscular System for 30 Points

**These type of muscles  
cause the heart to beat.**

What are cardiac muscles?

# Muscular System for 40 Points

**These are the number of  
muscles in the human  
body.**

What is 630?

# Muscular System for 50 Points

**Muscles can only move in that way.**

What is pulling?

# Respiratory System for 10 Points

The tube in which air  
travels to and from the  
lungs.

What is the trachea?

# Respiratory System for 20 Points

This gas is exhaled from  
the lungs.

What is carbon dioxide?

# Respiratory System for 30 Points

**This main muscle, located under the lungs, is used in the respiratory system.**

What is the diaphragm?

# Respiratory System for 40 Points

At what age would you  
take in more oxygen? 2  
months, 5 years, 10 years,  
40 years.

What is 40 years?

# Respiratory System for 50 Points

These are the two tubes  
that take air into the lungs.

What are bronchi?

# Skeletal System for 10 Points

This is the place where  
two bones meet.

What is a joint?

# Skeletal System for 20 Points

**This is the type of bone in  
your thigh.**

What is a long bone?

# Skeletal System for 30 Points

I am the soft tissue inside  
of the bone.

What is marrow?

# Skeletal System for 40 Points

This is the type of joint in  
your elbow.

What is synovial or generalized?

# Skeletal System for 50 Points

There is this many bones  
in the adult human body.

What is 206?

# Nervous System 10 Points

## Neurons

What is the main cell of the nervous system?

# Nervous System for 20 Points

The brain is part of this  
part of the nervous  
system.

What is the central nervous system?

# Nervous System for 30 Points

The gap between nerve  
cells.

What is synapse?

# Nervous System for 40 Points

I am part of the nerve cells  
in the legs. I am a part of  
this section of the nervous  
system.

What is the peripheral nervous system?

# Nervous System for 50 Points

The division of the peripheral nervous system that controls all involuntary body process, such as heartbeat and peristalsis.

What is the autonomic nervous system?

# Circulatory System for 10 Points

The main organ for the  
circulatory system.

What is the heart?

# Circulatory System for 20 Points

**These carry oxygenated  
blood away fro the heart.**

What are arteries?

# Circulatory System for 30 Points

**This is the chamber of  
the heart to which the  
aorta is connected.**

What is the left ventricle?

# Circulatory System for 40 Points

**These are the thinnest  
passage for blood to flow  
through in the body.**

What are capillaries?

# Circulatory System for 50 Points

This is the chamber of the  
heart where blood returns  
from the body.

What is the right atrium?
