SUPPORT

The Morehouse School of Medicine

Founder's Fund provides critical support for the fundamental academic and administrative operations of the school. The Founder's Fund helps to bridge the gap between tuition and the true costs of a health professions education. Annual donations to the fund support student scholarships, the library, and classroom and technology enhancements.

M.P.H. student orientation with Ngozi Anachebe, Pharm. D., M.D., '98, asst. dean, Admissions and Student Affairs.

MISSION

Morehouse School of Medicine is dedicated to improving the health and well-being of individuals and communities; increasing the diversity of the health professional and scientific workforce; and addressing primary health-care needs through programs in education, research, and service, with emphasis on people of color and the underserved urban and rural populations in Georgia and the nation.

The Power of Giving

As a relatively small, private institution with a large and lofty public mission, Morehouse School of Medicine is highly dependent upon extraordinary philanthropy. Given today's complex and challenging health professions' educational environment, it is vitally important that we continue to expand the number of donors and increase the level of contributions in support of our unique purpose.

Contributor \$500 – \$2,499
 Patron \$2,500 – \$4,999
 Gloster Society \$5,000+

First-year M.D. students at orientation.

MSM FACTS

Degrees Offered:

We award the Doctor of Medicine (M.D.), Doctor of Philosophy in Biomedical Sciences (Ph.D.), Master of Public Health (M.P.H.), Master of Science in Clinical Research (M.S.C.R.), Master of Science in Biomedical Research and Master of Science in Biomedical Technology degrees.

Students:

Student enrollment for 2009-10 is 329. Students continue to distinguish themselves on national certifying examinations. The Class of 2009 achieved a 100 percent pass rate for first-time test takers on the U.S. Medical Licensing Examination Step 1.

Research:

The school's research stature and reputation have grown exponentially over the last decade, fueled in large part by significant investments in our research infrastructure with funding from the National Center for Research Resources and the National Center on Minority Health and Health Disparities of the National Institutes of Health (NIH).

In 2009, MSM received more than \$54 million in NIH funding. The outcomes of our research activities have resulted in the establishment of centers, institutes, and programs with our signature areas of research being cardio-metabolic diseases, cancer, HIV/AIDS, reproductive diseases and neurological disorders—all areas that disproportionately impact minority communities.

Alumni:

The institution has graduated more than 1,000 students since 1981, several holding leadership roles of distinction. More than 60 percent of our alumni advance the mission of the school by serving in rural and urban communities; 64 percent of the Class of 2009 matched into primary care disciplines.

Karla Booker, M.D., Dept. of Family Medicine, examines young patient.
