Presented by

**Department of Medicine
Pulmonary Section**

Aurelian Bidulescu, MD MPH PhD FAHA

Associate Professor – Department of Epidemiology and Biostatistics
Indiana University School of Public Health – Bloomington, IN

***“Molecular Epidemiology in the Context of Health Disparities; Cardio Metabolic
Examples in the Current Obesity Epidemics.”***

Wednesday, March 16, 2016

12:00 p.m.

Piedmont Hall - Auditorium

Learning Objectives

At the end of this presentation participants will be able to:

1. Define and describe adipokine biomarkers for cardiovascular risk assessment in a large cohort.
2. Recognize the limitations of questionnaire-based assessment of various epidemiological tools.
3. Identify the usefulness of genetic ancestry estimation for cardiometabolic conditions.

Speaker Disclosure(s): None

Morehouse School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing medical education for physicians.

The Morehouse School of Medicine designates this live activity for a maximum of 1 AMA PRA Category 1 credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Morehouse School of Medicine (MSM) requires instructors, planners, managers and other individuals who are in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by MSM for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and appropriateness of patient care recommendations.

Lunch will be Provided
