

Bridges to Health Equity

Bridges to Health Equity (2 credit hours)

This course will: a) provide learners with knowledge of the ways through which diverse individual, social, institutional and historical injustice impact health disparities; b) provide instruction in the concepts, methods, key issues, and research tools necessary for conducting health equity research, with an emphasis on the research frameworks applicable to understanding and intervening in the social determinants of health to achieve health equity. This course will be available for registration in the GEBS and GEPH programs.

Dates: February 1, 2016 – April 20, 2016

Times: Mondays and Wednesdays 9:00a - 10:30a
