

INFLUENZA VACCINE CONSENT FORM

Dear Teen Volunteer parents/guardians:

As a condition of participation as a Youth Mentoring and Clinical Observership Program at Grady Health System (GHS), it is required that all observers comply with mandatory requirements to include the receipt of the seasonal Influenza Vaccine. Completion of such requirements ensures regulatory compliance and provides a safe environment for employees, patients and their families.

Only Student Observers who have completed an approved medical or religious exemption are excused from taking the vaccine and are considered compliant with the requirement. ROEO Participants who do not receive the influenza vaccine due to an approved exemption are required to wear masks at all times while on the Grady campus during the entire flu season. Failure to comply with the mask requirements may result in the forfeiture of participation in the Reach One Each One program.

Grady asks your permission to administer the Influenza Vaccine, if you have had this year's flu vaccine already administered with proper documentation. A Grady Employee Health Nurse will administer the vaccine during the allotted walk-in hours after the interview, before shadowing begins. The Influenza Vaccine is free of charge to all participating observers. It is a vital component needed for health clearance in order to get the student's Grady I.D. Batch in order to participate in clinical shadowing.

All immunizations are administered in accordance with the recommendations of the Advisory Committee on Immunization Practices (ACIP), U.S. Public Health Service and with guidelines set forth by the Centers for Disease Control and Prevention. If you have any questions or concerns, contact the Trauma Education and Outreach Coordinator Office. Thank you for your cooperation.

To indicate your consent for the administration of the Influenza Vaccine to your child, sign and date below, and have your child bring this signed letter with them to Grady.
