DEPARTMENT OF COMMUNITY HEALTH AND PREVENTIVE MEDICINE

March 18, 2021

Dear Public Health Symposium Attendees:

Welcome to the 12th annual Daniel S. Blumenthal Public Health Symposium. We are delighted to have you join us as we address health equity and community engagement research, clinical preventive medicine (preventive medicine skills), and public health practice and their impact on the community as we pursue our vision to “lead the creation and advancement of health equity”.

Our theme this year is “The Legacy of Community Engagement and Public Health Practice: Advancing Health Equity Through Academic Excellence.” Our Daniel S. Blumenthal Lecturer this year is Dr. Brian Smedley, Chief of Psychology in the Public Interest, where he “leads the American Psychological Association’s efforts to apply science and practice of psychology to the fundamental problems of human welfare and social justice.” Dr. Smedley is also the Co-Founder of the National Collaborative for Health Equity, a project that connects research, policy analysis, and communications with on-the-ground activism to advance health equity. His areas of expertise include racism and health inequities, social determinants of health, health care disparities and diversity in health professions.

Our Symposium invited speaker is our own Daniel Dawes, JD, Director of the Satcher Health Institute and Associate Professor in the Department of Community Health and Preventive Medicine. Mr. Dawes is the author of two books that discuss social determinants of health and its impact on policies that affect our health and healthcare.

As a special treat, we will showcase the faculty within the department and their scholarly work through samplings of publications that have been made available. These works display the legacy of health equity from the department as we strive to address health equity as an acknowledgement of the work of Dr. Daniel S. Blumenthal and his influence over this next generation of community health professionals.

We anticipate that the sharing of evidence-based strategies, best practices, lessons learned, and recommendations for action during this half-day conference will enhance the capacity of local communities and key stakeholders to mobilize to mitigate negative health outcomes and social impacts.

Thank you for joining us today. The Department of Community Health and Preventive Medicine is pleased to host this symposium and excitedly anticipate open dialog with you for better, safer, and healthier local communities through public health practices.

Sincerely,

A handwritten signature in cursive script that reads "Beverly Deaderick Taylor, MD".

Beverly Deaderick Taylor, MD
Professor and Chair

DEPARTMENT OF COMMUNITY HEALTH AND PREVENTIVE MEDICINE

2021 Daniel S. Blumenthal Virtual Public Health Symposium
Legacy of Community Engagement and Public Health Practice: Advancing Health Equity Through Academic Excellence

This symposium honors the legacy of **Daniel Sender Blumenthal, MD, MPH**, who devoted almost 40 years teaching medical and other health professionals how to properly treat and care for disadvantaged, underserved populations. He was unwavering in his commitment to empowering communities and worked tirelessly in local Atlanta communities to bring quality healthcare services, research, and resources to some of the city's most impoverished areas.

He was the founding Chairman of the Department of Community Health and Preventive Medicine at MSM and worked tirelessly to develop innovative ways to educate medical and other health professional students on the importance of community engagement, regardless of the specialty they ultimately chose to enter. Although he retired from the medical school in 2014, he continued to work with Morehouse School of Medicine as Professor and Chair Emeritus of the Department of Community Health and Preventive Medicine until the final day of his life. Dr. Blumenthal was proud of the department's achievements in undergraduate and graduate medical education; and was most proud of the development and implementation of the MSM Prevention Research Center, which was founded in 1998 under his leadership, with a grant from Centers for Disease Control and Prevention. This Center continues to operate today with CDC funding and has made an impact on the health of communities in Atlanta, the State of Georgia, the Nation and beyond.

Register Here: **[2021 Daniel S. Blumenthal Virtual Public Health Symposium](#)**

We welcome public health professionals, healthcare providers, community health workers, researchers, health and social service agency leaders, policy decision makers, medical residents, students, community-at-large, and community leaders.

KEYNOTE SPEAKER

Brian D. Smedley, PhD

Brian D. Smedley, PhD is Chief of Psychology in the Public Interest, where he leads APA’s efforts to apply the science and practice of psychology to the fundamental problems of human welfare and social justice. A national thought leader in the field of health equity, Dr. Smedley got his start in Washington, D.C. as an APA Congressional Science Fellow, and subsequently served at APA as Director of Public Interest Policy. Most recently, he was co-founder and Executive Director of the National Collaborative for Health Equity (www.nationalcollaborative.org), a project that connects research, policy analysis, and communications with on-the-ground activism to advance health equity. He was also co-Director of the Robert Wood Johnson Foundation Culture of Health Leadership National Program Center. From 2008 to 2014, Dr. Smedley was Vice President and Director of the Health Policy Institute of the Joint Center for Political and Economic Studies in Washington, DC, a research and policy organization focused on addressing the needs of communities of color.

Previously, Dr. Smedley was Research Director and co-founder of a communications, research and policy organization, The Opportunity Agenda (www.opportunityagenda.org), which seeks to build the national will to expand opportunity for all. Prior to helping launch The Opportunity Agenda, Dr. Smedley was a Senior Program Officer at the Institute of Medicine (IOM), where he served as Study Director for the IOM reports, *In the Nation’s Compelling Interest: Ensuring Diversity in the Health Care Workforce* and *Unequal Treatment: Confronting Racial and Ethnic Disparities in Health Care*, among other reports on diversity in the health professions and minority health research policy.

Among his awards and distinctions, in 2013 Smedley received the American Public Health Association’s Cornely Award for social activism; in 2009 Smedley received the Congressional Black Caucus Congressional Leadership in Advocacy Award; in 2005 he received a Presidential Citation from the APA; in 2004 he was honored by the Rainbow/PUSH coalition as a “Health Trailblazer” award winner; and in 2002 he was awarded the Congressional Black Caucus “Healthcare Hero” award. Dr. Smedley received a Ph.D. degree in Clinical Psychology from UCLA in 1992, and an A.B. degree in Psychology & Social Relations from Harvard University in 1986.

& Preventive Medicine

INVITED SPEAKER

Daniel E. Dawes, JD

Daniel E. Dawes, JD, a widely respected scholar, researcher, educator, and leader in the health equity, health reform, and mental health movements, is director of the Satcher Health Leadership Institute at Morehouse School of Medicine in Atlanta, Georgia and a professor of health law, policy and management. He is also the co-founder of the Health Equity Leadership and Exchange Network (HELEN), which is a nationwide network of over 2000 governmental and non-governmental leaders, researchers, and scholars focused on bolstering leadership and the exchange of research, information, and solutions to advance evidence-based health equity-focused policies and programs.

Dawes's research focuses on the determinants or drivers of health inequities among under-resourced, vulnerable, and marginalized communities and is the pioneer of a new approach to examining inequities, the political determinants of health. He brings a forward-thinking, inclusive, and multidisciplinary approach to health policy, authoring two groundbreaking books, *150 Years of ObamaCare* and *The Political Determinants of Health*, published by Johns Hopkins University Press, which have received critical acclaim and rave reviews.

He is the recipient of several national awards and recognition, including the American Public Health Association's Award for Significant Contribution to Public Health, the American Psychological Association's Exceptional Leadership in Advocacy Award, the Centers for Disease Control and Prevention's Health Equity Champion Award, the National Medical Association's Louis Stokes Health Advocacy Award, Families USA Health Equity Advocate Award, the NMQF Minority Health Leader Award Presented the Key to the City of St. Petersburg, Florida for national leadership advancing health equity, the Gift of Life MOTTEP Healthcare Vanguard Award, and the Caribbean Exploratory Research Center of Excellence Service Award.
